### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 5, 9, and 25 to 27 are allowable because the prior art of record does not disclose or reasonably suggest at least a speech recognition system of two or more clients for encoding a buffer of audio speech into packets, and a server for decoding received encoded speech packets, where a processing time, or level of processing, used to evaluate speech will vary based on a value communicated to the server from a client. Applicant's Specification, Paragraph 80 to Paragraph 84, states that the client sends a request to the server in the form of a URL, where an accuracy number in a URL controls the amount of processing time used to evaluate the user's speech by speech recognition, or a level of recognition to employ for any particular word or phrase. The prior art of record does not disclose or reasonably suggest the limitation of communicating a value between a client and server indicating a processing time, or level of processing, for a server to evaluate speech by speech recognition.

Applicant's amendments, adding the limitation of communicating a value from a client to a server for evaluating a processing time, obviate a double patenting rejection of independent claim 1.

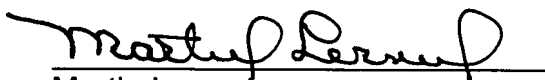

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
